

## Online Evaluation, Management and Feedback Solutions for Higher Education Since 1999

### IOTA Solutions is now IOTA360™

Merriam-Webster defines **IOTA** as "a very small amount; an infinitesimal amount"

**360**, as in 360 degrees in a full circle, universally implies full visibility all around you.

As a data collection and reporting platform, **IOTA360** collects millions of data points, each seemingly tiny on its own. But when all the data is aggregated, sorted, and presented in a useful way, it tells a story. The sum of millions of tiny pieces of data, displayed to you in **IOTA360**, will give you complete visibility and enable you to make informed, data-driven decisions.
